

WHY?

Why do students disrupt your classroom? Are there problems at home? Are they seeking attention? Are they bored? Do they know they can get away with it? Be honest.

HOW?

How do you currently connect with your students? What do you not know about them? Which students do you know nothing about? How can you get to know your students?

WHO?

Who already praises your students? Which students never receive positive feedback? Who would they be most excited to hear praise from? You? Coach? Teacher? Parent?

WHAT?

What is your current schedule and discipline policy? Do you enforce your rules on everyone? Have you ever been called unfair? Are you partial to your favorite students?

WHEN?

When do you allow your students to make choices? How could they be more involved in their educational process? How often do you ask for feedback on assignments?
